

**ROBERT M. KIRBY**  
School of Computing  
University of Utah  
50 S. Central Campus Drive, Rm 3190  
Salt Lake City, UT 84112-9205  
Office: (801) 585-3421  
Email: kirby@cs.utah.edu

**Education:**

- Brown University, Doctor of Philosophy degree in Applied Mathematics, Completed August 2002/Awarded May 2003.  
Dissertation Title: “Toward Dynamic Spectral/hp Refinement: Algorithms and Applications to Flow-Structure Interactions”  
Advisor: Professor George Em Karniadakis
- Brown University, Master of Science degree in Computer Science, May 2001.  
Project Title: “Visualizing Fluid Flow Data: From the Canvas to the Cave”  
Advisor: Professor Andries van Dam
- Brown University, Master of Science degree in Applied Mathematics, May 1999.  
Advisor: Professor George Em Karniadakis
- Florida State University, Bachelor of Science degree, May 1997; Majors: Applied Mathematics and Computer and Information Sciences; Graduated *Summa Cum Laude*.

**Research Focus and Interests:**

Large-scale scientific computation and visualization, with an emphasis on the scientific cycle of mathematical modeling, high-performance computation and parallelization, visualization, evaluation, and understanding. Primary research interests are:

- Computational Science and Engineering
- High-Order Methods: Algorithm Development and Applications Scientific Visualization
- Concurrent Programming: Verification and Applications
- High Performance Computing

**Work Experience:**

- July 2014 – present: Professor of Computing  
School of Computing and Scientific Computing and Imaging Institute, University of Utah
- July 2014 – present: Adjunct Professor of Mathematics  
Department of Mathematics, University of Utah
- July 2014 – present: Adjunct Professor of Bioengineering  
Department of Bioengineering, University of Utah
- December 2008 – June 2009: Leverhulme Visiting Professor  
Department of Aeronautics, Imperial College London (UK)
- September 2008 – November 2008: Visiting Academic  
Department of Aeronautics, Imperial College London (UK)
- September 2008 – November 2008: Visiting Academic  
Center for Mathematical Sciences and Cavendish Laboratory, Cambridge University (UK)

- July 2008 – June 2014: Adjunct Associate Professor of Mathematics  
Department of Mathematics, University of Utah
- July 2008 – June 2014: Adjunct Associate Professor of Bioengineering  
Department of Bioengineering, University of Utah
- July 2008 – June 2014: Associate Professor of Computing  
School of Computing and Scientific Computing and Imaging Institute, University of Utah
- July 2007 – June 2008: Adjunct Assistant Professor of Mathematics  
Department of Mathematics, University of Utah
- January 2007 – June 2008: Adjunct Assistant Professor of Bioengineering  
Department of Bioengineering, University of Utah
- September 2002 – June 2008: Assistant Professor Computing  
School of Computing and Scientific Computing and Imaging Institute, University of Utah
- September 1997 – August 2002: Graduate Research Assistant  
Center for Fluid Mechanics, Brown University
- April 1997 – August 1997: Computer Systems Manager  
The Geophysical Fluid Dynamics Institute at The Florida State University
- June 1992 – March 1997: Computer Programmer/ Research Assistant  
The Geophysical Fluid Dynamics Institute at The Florida State University

#### **Awards and Honors:**

- Awarded Leverhulme Visiting Professorship, 2008-2009.
- Best Paper Award, ACM Solid and Physical Modeling Symposium (SPM'08), 2008.
- Best Paper Award, Parallel and Distributed Systems: Testing and Debugging (PADTAD), 2007.
- Best Paper Award, Formal Methods for Industry Critical Systems (FMICS), 2007.
- Outstanding Paper Award, EuroPVM-MPI, 2006.
- NSF CAREER Award NSF-CCF0347791, 2004.
- Joukowski Award for Outstanding Dissertation in the Physical Sciences, Brown University Graduate School, May 2003.

#### **Leadership Positions:**

- Associate Director, School of Computing, University of Utah, 2014 – present.
- Assistant Program Manager, Multi-Scale Multidisciplinary Modeling of Electronic Materials (MSME) Collaborative Research Alliance (CRA), University of Utah, 2012 – present.
- Chair, Scientific Computing Track, Computing PhD Program, School of Computing, University of Utah, 2004 – 2014.
- Director of Graduate Studies, School of Computing, University of Utah, 2012 – 2014.
- Associate Director, Computational Engineering and Science Program, University of Utah, 2004–2005, 2012 – 2014.
- Senator, Academic Senate, University of Utah, 2006 – 2008.
- Director, Computational Engineering and Science Program, University of Utah, 2005 – 2008.
- Associate Director, Scientific Computing and Imaging Institute, University of Utah, 2006–2007.

## Publications

### Book:

1. Tiago Etienne, Robert M. Kirby and Claudio Silva, *An Introduction to Verification of Visualization Techniques*, Morgan & Claypool Publishers, 2015.
2. Robert M. Kirby, Martin Berzins and Jan S. Hesthaven (Editors), *Spectral and High Order Methods for Partial Differential Equations: Selected Papers from the ICOSAHOM'14 Conference, June 23-27, 2014, Salt Lake City, UT, USA.*, Lecture Notes in Computational Science and Engineering, Springer, 2015.
3. George Em Karniadakis and Robert M. Kirby, *Parallel Scientific Computing in C++ and MPI*, Cambridge University Press, UK, 628 pages, 2003.

### Book Chapters:

1. Robert M. Kirby, Daniel F. Keefe and David H. Laidlaw, “Painting and Visualization”, *Visualization Handbook*, Academic Press, pages 873 – 891, 2004. Editors: C. Hansen and C. Johnson.
2. Robert M. Kirby and George Em Karniadakis, “Spectral Element and hp Methods”, *Encyclopedia of Computational Mechanics*, John Wiley and Sons, NY, Volume 3, Chapter 3, pages 61 – 88, 2004. Editors: E. Stein, R. de Borst and T.J.R. Hughes.
3. Robert M. Kirby and George Em Karniadakis, “Under-Resolution and Diagnostics in Spectral Simulations of Complex-Geometry Flows”, *Turbulent Flow Computation*, Kluwer Academic Publishers, The Netherlands, pages 1 – 42, 2001. Editors: D. Drikakis and B. Geurts.
4. R.M. Kirby, G.E. Karniadakis, O. Mikulchenko and K. Mayaram, “Integrated Simulation for MEMS: Coupling Flow-Structure-Thermal-Electrical Domains”, *The CRC Handbook of MEMS*, CRC Press, Boca Raton, FL, pages 5-1 – 5-25, 2001. Editor: M. Gad-el-Hak.

### Peer-Reviewed Journal Publications:

1. Carlo Forestiere, Yanyan He, Ren Wang, Robert M. Kirby and Luca Dal Negro, “Inverse Design of Metal Nanoparticles’ Morphology”, *ACS Photonics*, In Press, 2015.
2. Hadi Meidani, Justin B. Hooper, Dmitry Bedrov and Robert M. Kirby, “Calibration and Ranking of Coarse-Grained Models in Molecular Simulations Using Bayesian Formalism”, *International Journal for Uncertainty Quantification*, In Press, 2015.
3. Yanyan He, Mahsa Mirzargar, Sophia Hudson, Robert M. Kirby and Ross T. Whitaker, “An Uncertainty Visualization Technique Using Possibility Theory: Possibilistic Marching Cubes”, *International Journal for Uncertainty Quantification*, In Press, 2015.
4. X. Li, J.K. Ryan, R.M. Kirby and C. Vuik, “Smoothness-Increasing Accuracy-Conserving (SIAC) Filters for Derivative Approximations of discontinuous Galerkin (DG) Solutions over Nonuniform Meshes and Near Boundaries”, *Journal of Computational and Applied Mathematics*, In Press, 2015.
5. Mahsa Mirzargar, Jennifer K. Ryan and Robert M. Kirby, “Smoothness-Increasing Accuracy-Conserving (SIAC) Filtering and Quasi-Interpolation: A Unified View”, *Journal of Scientific Computing*, In Press, 2015.
6. Sergey Yakovlev, David Moxey, Robert M. Kirby and Spencer J. Sherwin, “To CG or to HDG: A Comparative Study in 3D”, *Journal of Scientific Computing*, In Press, 2015.
7. Yanyan He, Mahsa Mirzargar and Robert M. Kirby, “Mixed Aleatory and Epistemic Uncertainty Quantification Using Fuzzy Set Theory”, *International Journal of Approximate Reasoning*, Vol. 66, pages 1–15, 2015.

8. Varun Shankar, Grady B. Wright, Robert M. Kirby and Aaron L. Fogelson, “Augmenting the Immersed Boundary Method with Radial Basis Functions (RBFs) for the Modeling of Platelets in Hemodynamic Flows”, *International Journal for Numerical Methods in Fluids*, In Press, 2015.
9. Mukund Raj, Mahsa Mirzargar, Robert M. Kirby and Ross T. Whitaker, “Evaluating Alignment of Shapes by Ensemble Visualization”, *IEEE Computer Graphics and Applications*, In Press, 2015.

## Presentations

*Presentations as a University of Utah Faculty Member*

### Invited Talks:

1. (Speaker) Salt Lake City Data Science Meetup, Salt Lake City, UT. Presented a talk entitled “Ensemble Visualization and Uncertainty Characterization Using Generalized Notions of Data Depth”, December 2015.
2. (Speaker) Imperial College London School of Computing and Department of Aeronautics, London, UK. Presented a talk entitled “Ensemble Visualization and Uncertainty Characterization Using Generalized Notions of Data Depth”, November 2015.
3. (Speaker) University of East Anglia Department of Mathematics, Norwich, UK. Presented a talk entitled: “Ensemble Visualization and Uncertainty Characterization Using Generalized Notions of Data Depth”, November 2015.
4. (Speaker) Rensselaer Polytechnic Institute Scientific Computation Research Center, Troy, NY. Presented a talk entitled: “Multiscale modeling and uncertainty quantification as part of ‘Materials by Design’”, October 2015.
5. (Speaker) National Hurricane Center, Florida International University. Presented a talk entitled: “Ensemble Visualization and Uncertainty Characterization Using Generalized Notions of Data Depth”, October 2015.
6. (Speaker) Nektar++ Workshop 2015. Presented a talk entitled: “Nektar ++: A look into the future”, July 2015.
7. (Speaker) 2015 MACH Conference (Annapolis, MD). Presented a talk entitled: “Surrogate-Based Bayesian Model Ranking of Atomistic Models”, April 2015.
8. (Speaker) Technical University Munich, Germany. Presented a talk entitled: “Sensitivity Analysis and Its Relation to UQ”, January 2014.
9. (Speaker) Los Alamos National Laboratory Data Science / IS&T Seminar Series. Presented a talk entitled: “Lessons Learned in the Search for ‘Verifiable Visualizations’”, August 2014.
10. (Speaker) Schloss Dagstuhl Seminar on Scientific Visualization, Germany. Presented a talk entitled “Lessons Learned in the Search for ‘Verifiable Visualization’”, June 2014.
11. (Speaker) European Geosciences Union (EGU) General Assembly 2014 (Vienna, Austria). Presented a talk entitled: “Contour Boxplots: A Method for Characterizing Uncertainty in Feature Sets for Simulation Ensembles”, April 2014.
12. (Speaker) 2014 MACH Conference (Annapolis, MD). Presented a talk entitled: “Uncertainty-aware multi scale modeling of atomic systems”, March 2014.
13. (Speaker) Technical University Munich, Germany. Presented a talk entitled: “Contour Boxplots: A Method for Characterizing Uncertainty in Feature Sets from Simulation Ensembles”, March 2014.
14. (Speaker) National Hurricane Center, Florida International University. Presented a talk entitled: “Contour Boxplots: A Method for Characterizing Uncertainty in Feature Sets from Simulation Ensembles”, March 2014.
15. (Speaker) School of Computing, Clemson University. Presented a talk entitled: “Lessons Learned in the Search for ‘Verifiable Visualizations’”, October 2013.
16. (Speaker) Fraunhofer MeVis, Bremen, Germany. Presented a talk entitled: “Lessons Learned in the Search for ‘Verifiable Visualizations’”, June 2013.
17. (Speaker) EuroRVVV 2013 (Workshop Co-located with EuroVis 2013, Leipzig, Germany). Presented a talk entitled: “Lessons Learned in the Search for ‘Verifiable Visualizations’”, June 2013.

18. (Speaker) 2013 MACH Conference (Annapolis, MD). Presented a talk entitled: “VVUQ: A Tutorial on Validation, Verification and Uncertainty Quantification”, April 2013.
19. (Speaker) 51<sup>st</sup> AIAA Aerospace Sciences Meeting. Presented a talk entitled: “Widening Verification to Include Visualization: Expanding the Simulation Science Pipeline”, January 2013.
20. (Speaker) Department of Computer Science, Florida State University. Presented the “Grad Gone Good” Alumni Lecture entitled: “Visualization of High-Order Finite Element Methods”, October 2012.
21. (Speaker) Department of Computer Science, NYU-Poly. Presented a talk entitled: “Visualization of High-Order Finite Element Methods”, August 2012.
22. (Speaker) Department of Computer Science, University of Minnesota. Presented a talk entitled: “Visualization of High-Order Finite Element Methods”, July 2012.
23. (Speaker) World Congress of Computational Mechanics (WCCM) 2012 held in Sao Paolo, Brazil. Invited to speak in Minisymposium on “Advances in High-Order Methods”; Presented a talk entitled: “To CG or to HDG: A Progress Report”, July 2012.
24. (Speaker) Department of Mathematics, Imperial College London, UK. Presented a talk entitled “Quantifying Uncertainty in an Attempt to Answer Biomedical Questions: From the Computer Lab to the Clinic”, March 2012.
25. (Speaker) Division of Applied Mathematics, Brown University. Presented a talk entitled “Turning the V&V Lens Towards Visualization Techniques”, October 2011.
26. (Speaker) Department of Applied Mathematics, Technical University Delft, The Netherlands. Presented a talk entitled “A Fast Iterative Method for Solving the Eikonal Equation on Triangular and Tetrahedral Domains Using GPUs”, October 2011.
27. (Speaker) USA/South America Symposium on Stochastic Modeling & Uncertainty Quantification, Rio de Janeiro, Brazil. Presented a talk entitled “Quantifying Uncertainty in an Attempt to Answer Biomedical Questions: From the Computer Lab to the Clinic”, August 2011.
28. (Speaker) Schloss Dagstuhl Seminar on Scientific Visualization, Germany. Presented a talk entitled “Verifiable Visualization”, June 2009.
29. (Speaker) School of Engineering, University of Swansea, United Kingdom. Presented a sabbatical talk in the Civil and Computational Engineering Centre Seminar Series entitled: “Bridging the Gaps: H-to-P Efficiently and CG-to-DG Transparently”, May 2009.
30. (Speaker) Department of Computer Science, University of Swansea, United Kingdom. Presented a Leverhulme Lecture entitled “Building Symbiotic Relationships between Formal Verification and High-Performance Computing”, May 2009.
31. (Speaker) School of Engineering and Science, Jacobs University, Germany. Presented a sabbatical talk in the Applied Computational Mathematics Seminar Series entitled “Analysis-Guided Improvements of the Material Point Method”, April 2009.
32. (Speaker) Department of Applied Mathematics, University of Waterloo, Canada. Presented a sabbatical talk in the Computational Mathematics Seminar Series entitled “Visualization of High-Order Finite Element Methods”, March 2009.
33. (Speaker) School of Computing, Imperial College London, United Kingdom. Presented a Leverhulme Lecture entitled “Living with the Bipolar Nature of Computer Science: Experiences in Research and Teaching”, March 2009.
34. (Speaker) Maths Institute, Imperial College London, United Kingdom. Presented a Leverhulme Lecture entitled “Computational Methods for Quantifying Uncertainty in Biological Modelling”, February 2009.

35. (Speaker) School of Computing, University of Leeds, United Kingdom. Presented a Leverhulme Lecture entitled “Computational Methods for Quantifying Uncertainty in Biological Modelling”, February 2009.
36. (Speaker) Center for Computation and Technology, Louisiana State University. Presented a sabbatical talk as a Special Guest Lecture entitled “Building Symbiotic Relationships Between Formal Verification and High-Performance Computing”, December 2008.
37. (Speaker) Center for Computation and Technology, Louisiana State University. Presented a sabbatical talk in the Computational Mathematics Seminar Series entitled “Visualization of High-Order Finite Element Methods”, December 2008.
38. (Speaker) Department of Mathematics, University of Reading, United Kingdom. Presented a sabbatical talk entitled “Analysis-Guided Improvements of the Material Point Method”, November 2008.
39. (Speaker) School of Mathematics, University of Edinburgh, United Kingdom. Presented a sabbatical talk entitled “Computational Methods for Quantifying Uncertainty in Biological Modelling”, October 2008.
40. (Speaker) Department of Applied Mathematics, Technical University Delft, The Netherlands. Presented a talk entitled “Visualization of High-Order Finite Element Methods”, August 2008.
41. (Speaker) Meeting on Extreme Engineering – Opportunities Using Petaflop Computing, Daresbury Laboratory (UK). Presented a talk entitled “Building Symbiotic Relationships between Formal Verification and High-Performance Computing”, July 2008.
42. (Speaker) Intelligent Visualization and Simulation Lab, University of Kaiserslautern, Germany. Presented a talk entitled “Visualization of High-Order Finite Element Methods”, June 2008.
43. (Speaker) Center of Complex Systems and Visualization, University of Bremen, Germany. Presented a talk entitled “Topology, Accuracy, and Quality of Isosurface Meshes Using Dynamic Particles”, February 2008.
44. (Speaker) School of Computing, University of Leeds (UK). Presented a talk entitled “Simulation Science: The Modeling of Real-World Problems”, July 2007.
45. (Speaker) International Workshop on High-Order Finite Element Methods, Herrsching am Ammersee (near Munich), Germany. Presented a talk entitled “Visualization of High-Order Finite Element Methods”, May 2007.
46. (Speaker) Institute for Numerical Simulation, University of Bonn, Germany. Presented a talk entitled “Simulation Science: The Modeling of Real-World Problems”, April 2007.
47. (Speaker) Center of Complex Systems and Visualization, University of Bremen, Germany. Presented a talk entitled “Particle Systems for Efficient and Accurate High-Order Finite Element Visualization”, March 2007.
48. (Speaker) Center of Complex Systems and Visualization, University of Bremen, Germany. Presented a talk entitled “Computational Methods for Quantifying Uncertainty in Biological Modeling”, June 2006.
49. (Speaker) Department of Mathematics, Virginia Tech. Presented a talk entitled “Simulation Science: The Modeling of Real-World Problems”, March 2006.
50. (Speaker) Center of Complex Systems and Visualization, University of Bremen, Germany. Presented a talk entitled “Simulation Science: The Modeling of Real-World Problems”, January 2006.
51. (Speaker) BIRS Workshop “Mathematical Foundations of Scientific Visualization, Computer Graphics, and Massive Data Exploration”, Banff, Canada. Presented a talk entitled “Computing and Visualization in Spectral/*hp* Element Methods”, May 2004.
52. (Speaker) Department of Mechanical Engineering, Ben Gurion University, Beer-Sheva, Israel. Presented a talk entitled “Simulation Science: The Modeling of Real-World Problems”, December 2003.
53. (Speaker) ACM SIGGRAPH/Eurographics Campfire: Visualization Meets Visual Effects. Presented a talk in the “Volume Models and Grid Generation (CFD People)” Campfire Session, September 2003.

54. (Speaker) Bad Honnef, Germany WE-Heraeus-Seminar on Adaptivity in Finite Element Analysis: Models, Meshes and Polynomial Order. Presented a talk entitled “Spectral/hp Element Methods for Fluid-Structure Interaction Problems. Part II: From the Fluid Perspective”, September 2003.
55. (Speaker) Department of Mathematics, University of Utah. Presented a talk entitled “Simulation Science: The Modeling of Real-World Problems”, September 2003.

#### Short Courses and Tutorials:

1. Robert M. Kirby (with Spencer J. Sherwin and Yvon Maday), Presented three of nine lectures on current scientific computing topics, *6<sup>th</sup> Montreal Scientific Computing Days*, University of Montréal, Montréal, Canada, May 4-6, 2009.
2. Spencer J. Sherwin and Robert M. Kirby, “A Hands-On Approach to Implementing and Using Spectral/hp Elements”, *16<sup>th</sup> Annual Conference of the CFD Society of Canada*, Saskatoon, Saskatchewan, Canada, June 12-13, 2008.

#### Conference Abstracts, Publications and Presentations:

1. Chris Cantwell, Sergey B. Yakovlev, Rheeda Ali, Nicholas Peters, Robert M. Kirby and Spencer J. Sherwin, “High-Order Finite Element Methods for Cardiac Electrophysiology”, SIAM CS&E Meeting, Salt Lake City, UT, March 2015.
2. Chris Cantwell, David Moxey, Robert M. Kirby and Spencer J. Sherwin, “Architecting Spectral/hp Element Codes for Modern Hardware”, SIAM CS&E Meeting, Salt Lake City, UT, March 2015.

53. (Speaker) R.M. Kirby, J. Xu and G.E. Karniadakis, "A Spectral Vanishing Viscosity Method for LES Applied to Turbulent Channel Flows", Presented at the SIAM Conference on Computational Science and Engineering, February 10-13, 2003.

#### **Other Presentations:**

1. (Speaker) IEEE Visualization 2015 Workshop "On Visualization For Decision Making Under Uncertainty" Panel Presentation. Presented a talk entitled: "Where is UQ/UVis Now? A Case Study", October 2015.
2. (Speaker) Microsoft Grant Review Held In Conjunction with International SuperComputing 2007. Presented a talk entitled "Formal Analysis for Debugging and Performance Optimization of MPI", June 2007.
3. (Speaker) University of Utah Center for Accidental Fires and Explosions (C-SAFE) Site Visit. Presented a talk entitled "Computational Engineering and Science Program: C-SAFE Educational Partnership", October 2005.
4. (Speaker) University of Utah School of Computing Graduate Sampler. Presented a talk entitled "Simulation Science: The Modeling of Real-World Problems", September 2003.

# Teaching

*Teaching Efforts as a University of Utah Faculty Member*

## **Classroom Experience:**

- Taught the undergraduate course CS 2100: Discrete Structures, Spring 2015, School of Computing, University of Utah.
- Taught the undergraduate course CS 4960: Computational and Data Science, Fall 2014, School of Computing, University of Utah.
- Taught the graduate course CS 6220: Advanced Scientific Computing II, Spring 2014, School of Computing, University of Utah.
- Taught the graduate course CS 6210: Advanced Scientific Computing I, Fall 2013, School of Computing, University of Utah.
- Taught the graduate course CS 6220: Advanced Scientific Computing II, Spring 2013, School of Computing, University of Utah.
- Taught the graduate course CS 6210: Advanced Scientific Computing I, Fall 2012, School of Computing, University of Utah.
- Taught the graduate course CS 6220: Advanced Scientific Computing II, Spring 2012, School of Computing, University of Utah.
- Taught the graduate course CS 6210: Advanced Scientific Computing I, Fall 2011, School of Computing, University of Utah.
- Taught the undergraduate course CS 2100: Discrete Structures, Fall 2011, School of Computing, University of Utah.
- Taught the graduate course CS 6230: High-Performance Computing and Parallelization, Spring 2011, School of Computing, University of Utah.
- Taught the undergraduate course CS 2100: Discrete Structures, Fall 2009, School of Computing, University of Utah.
- Taught a graduate course entitled “High-Performance Scientific Computing”, Fall Term 2008, Cavendish Laboratory, Cambridge University.
- Taught the graduate course CS 6220: Advanced Scientific Computing II, Spring 2008, School of Computing, University of Utah.
- Taught the undergraduate course CS 2100: Discrete Structures, Fall 2007, School of Computing, University of Utah.
- Taught the graduate course CS 6220: Advanced Scientific Computing II, Spring 2007, School of Computing, University of Utah.
- Taught the undergraduate course CS 2100: Discrete Structures, Fall 2006, School of Computing, University of Utah.
- Taught the graduate course CS 6220: Advanced Scientific Computing II, Spring 2006, School of Computing, University of Utah.
- Taught the undergraduate course CS 2100: Discrete Structures, Fall 2005, School of Computing, University of Utah.

- Taught the graduate course CS 6220: Advanced Scientific Computing II, Spring 2005, School of Computing, University of Utah.
- Taught the undergraduate course CS 2100: Discrete Structures, Fall 2004, School of Computing, University of Utah.
- Co-taught the graduate course MATH 6790-1: Case Studies in CES, Spring 2004, CES Program in conjunction with the School of Computing, University of Utah.
- Administered the Scientific Computing and Imaging Institute Seminar Series (course CS 7940), Spring 2004, SCI Institute, University of Utah.
- Taught the graduate course CS 6220: Advanced Scientific Computing II, Spring 2004, School of Computing, University of Utah.
- Taught the graduate seminar course CS 6938: Spectral Methods, Fall 2003, School of Computing, University of Utah.
- Taught the undergraduate course CS 2100: Discrete Structures, Fall 2003, School of Computing, University of Utah.
- Administered the Scientific Computing and Imaging Institute Seminar Series (course CS 7940), Fall 2003, SCI Institute, University of Utah.
- Taught the undergraduate course CS 2100: Discrete Structures, Fall 2003, School of Computing, University of Utah.
- Taught the graduate course CS 6965/7960-2: Adaptive Methods, Spring 2003, School of Computing, University of Utah.
- Administered the Scientific Computing and Imaging Institute Seminar Series (course CS 6938-1), Spring 2003, SCI Institute, University of Utah.
- Administered the Scientific Computing and Imaging Institute Seminar Series (course CS 6932-1), Fall 2002, SCI Institute, University of Utah.

### **Post-Doc Mentoring**

Current Mentoring:

- Mahsa Mirzargar, PhD (Computer Science, University of Florida). Fall 2012 – present
- Yanyan He, PhD (Mathematics, Florida State University). Spring 2014 – present

Former Mentoring:

- Linh Ha, PhD (Computer Science, Utah). Post-Doc Fall 2011–Spring 2012.
- Hadi Meidani, PhD (Civil Engineering, University of Southern California). Post-Doc Summer 2013 – Summer 2014.
- Shankar Sastry, PhD (Computer Science, Penn State University). Fall 2012 – Spring 2015.
- Sergey Yakovlev, PhD (Mathematics, RPI). Post-Doc Fall 2013–Fall 2014.

### **Graduate Student Advising:**

Current Student Advising:

- Ashok Jallepalli, Seeking Ph.D. degree in Computing.
- James King, Seeking Ph.D. degree in Computing.
- Harshitha Venkata, Seeking MS degree in Computer Science.

- M.S. Srivatsa, Seeking MS degree in Computer Science.
- Vidhi Zala, Seeking MS degree in Computer Science.

Graduated Students:

- Steve Barrus, B.S./M.S. degree in Computer Science, University of Utah, May 2006. Co-Advised with Prof. Ganesh Gopalakrishnan.
- Chris Berthiaume, M.S. degree in Computational Engineering and Science, University of Utah, December 2005.
- Ken Farnsworth, M.S. degree in Computational Engineering and Science, University of Utah, December 2008.
- Seung-Keol Choe, M.S. degree in Computational Engineering and Science, University of Utah, May 2004.
- Tom Cook, M.S. degree in Computational Engineering and Science, University of Utah, December 2004.
- Zhisong Fu, Ph.D. degree in Computing, University of Utah, December 2013. Co-Advised with Professor Ross Whitaker.
- Sarah Geneser, Ph.D. degree in Computer Science, University of Utah, May 2008.
- Sonjong Hwang, B.S./M.S. degree in Computer Science, University of Utah, May 2006. Co-Advised with Prof. Ganesh Gopalakrishnan.
- James Lewis, B.S./M.S. degree in Computer Science, University of Utah, August 2014.
- Hanieh Mirzaee, Ph.D. degree in Computing, University of Utah, December 2012.
- Blake Nelson, M.S. degree in Computer Science, University of Utah, August 2005. Ph.D. degree in Computing (Scientific Computing Emphasis), May 2012.
- Salman Pervez, M.S. degree in Computer Science, University of Utah, May 2007. Co-Advised with Professor Ganesh Gopalakrishnan.
- Nazmus Saquib, M.S. degree in Computational Engineering and Science, University of Utah, December 2013.
- Varun Shankar, Ph.D. degree in Computing (Scientific Computing Emphasis), University of Utah, August 2014. Co-Advised with Professor Aaron Fogelson.
- Michael Steffen, Ph.D. degree in Computing (Scientific Computing Emphasis), University of Utah, December 2009.
- Sarvani Vakkalanka, Ph.D. degree in Computer Science, University of Utah, 2010. Co-Advised with Professor Ganesh Gopalakrishnan.
- Ahn Vo, Ph.D. degree in Computer Science, University of Utah, 2011. Co-Advised with Professor Ganesh Gopalakrishnan.
- Dafang Wang, Ph.D. degree in Computing (Scientific Computing Emphasis), University of Utah, 2012. Co-Advised with Professor Chris Johnson.

**Undergraduate Student Advising:**

- Steve Barrus, NSF REU Program. Co-advised with Prof. Ganesh Gopalakrishnan.
- Michael Bentley, NSF REU Program.
- Sean Curtis, NSF REU Program.
- Michael DeLisi, Microsoft Research Project. Co-advised with Prof. Ganesh Gopalakrishnan.
- Curtis Hamman, Engineering Scholars Program and NSF REU Program.
- Safia Hassan, NSF REU Program.

- Sophia Hudson, NSF REU Program. Earned B.S. degree in Mathematics, University of Utah, May 2014.
- Mario Irizarry, Summer Research Opportunity Program, Summer 2004. Co-advised with Prof. Martin Berzins.
- T. James Lewis, NSF REU Program.
- Geof Sawaya, NSF REU Program and Microsoft Research Project. Co-advised with Prof. Ganesh Gopalakrishnan.
- Jason Williams, NSF REU Program and Microsoft Research Project. Co-advised with Prof. Ganesh Gopalakrishnan.
- Evan Young, NSF REU Program.

### **Graduate Student Committee Membership:**

- Ph.D. Committees
  - Matt Berger, School of Computing, University of Utah. Graduated December 2012.
  - Chaiwoot Boonyasiritwat, School of Computing, University of Utah. Graduated May 2009.
  - Steve Callihan, School of Computing, University of Utah. Graduated May 2008.
  - Roni Choudhury, School of Computing, University of Utah. Graduated August 2012.
  - Lindsay Crawl, Department of Mathematics, University of Utah. Graduated December 2010.
  - Joel Daniels, School of Computing, University of Utah. Graduated May 2009.
  - Tiago Etienne, School of Computing, University of Utah. Graduated Spring 2014.
  - Daniel Gerszewski, School of Computing, University of Utah. Graduated Spring 2015.
  - Mark Kim, School of Computing, University of Utah. Graduated Fall 2015.
  - Karin Leiderman, Department of Mathematics, University of Utah. Graduated December 2010.
  - Miriah Meyer, School of Computing, University of Utah. Graduated May 2008.
  - Tobias Martin, School of Computing, University of Utah. Graduated May 2012.
  - Elijah Newren, Department of Mathematics, University of Utah. Graduated May 2007.
  - Robert Palmer, School of Computing, University of Utah. Graduated May 2007.
  - Kristi Potter, School of Computing, University of Utah. Graduated December 2009.
  - Carlos Scheidegger, School of Computing, University of Utah. Graduated December 2009.
  - John Schreiner, School of Computing, University of Utah. Graduated May 2009.
  - Jason Shepherd, School of Computing, University of Utah. Graduated May 2007.
  - Lethuy Tran, School of Computing, University of Utah. Graduated December 2012.
  - Robert Van Uitert, School of Computing, University of Utah. Graduated December 2004.
  - Yu Yang, School of Computing, University of Utah. Graduated May 2009.
  - Asghar Yarahmadi, School of Computing, University of Utah.
- M.S. Committees
  - Lulang Bai, CES Program, University of Utah. Graduated May 2005.
  - Jason Butcher, School of Computing, University of Utah.
  - Chaiwoot Boonyasiriwat, CES Program, University of Utah. Graduated May 2004.
  - Steven Callahan, CES Program, University of Utah. Graduated August 2005.
  - Ashok Jallepalli, School of Computing, University of Utah. Graduated May 2012.
  - Jihwan Kim, CES Program, University of Utah. Graduated December 2004.

- Youngsong Kim, CES Program, University of Utah. Graduated in May 2012.
- Pavel Koshevoy, CES Program, University of Utah. Graduated August 2005.
- Anastasia Mironova, CES Program, University of Utah. Graduated August 2008.
- Sang Oh, CES Program, University of Utah. Graduated December 2004.
- Chuanbin Peng, CES Program, University of Utah. Graduated May 2005.
- Amjidanutpan Ramanujam, CES Program, University of Utah. Graduated May 2007.
- Andrew Shaeffer, CES Program, University of Utah. Graduated May 2005.
- Wesley Simon, School of Computing, University of Utah.
- Jake Van Alstyne, School of Computing, University of Utah. Graduated December 2012.
- Dimitri Yatsenko, CES Program, University of Utah. Graduated May 2005.
- Cheng Ye, School of Computing, University of Utah. Graduated May 2012.
- Peihong Zhu, School of Computing, University of Utah. Graduated December 2012.

## Service

### Professional Service:

Associate Editor for the following journals:

- *Mathematics and Computers in Simulation*, 2007 – 2009.

Have reviewed for the following journals:

- *Computer Methods in Applied Mechanics and Engineering*
- *IEEE Transactions on Visualization and Computer Graphics*
- *IEEE Transactions on Parallel and Distributed Systems*
- *International Journal for Uncertainty Quantification*
- *Journal of Applied Numerical Mathematics*
- *Journal of Computational Physics*
- *Journal of Fluids Engineering*
- *Journal of Fluids and Structures*
- *Journal of Mathematical Analysis and Applications*
- *Journal of Scientific Computing*
- *SIAM Journal on Scientific Computing*

Have reviewed for the following conferences:

- Two papers reviewed for IEEE VisWeek 2015.
- Five papers reviewed for IEEE VisWeek 2014.
- Six papers reviewed for IEEE VisWeek 2013.
- Six papers reviewed for IEEE VisWeek 2012.
- One paper reviewed for EuroVis 2012.
- One paper reviewed for IEEE VisWeek 2011.
- Nine papers reviewed for the International Conference on High-Performance Computing (HiPC 2007).
- Two papers reviewed for the International Conference on Computational Science (ICCS 2006).
- Six papers reviewed for International Conference on Computational Science and its Applications (ICCSA 2005).
- One paper for 2004 LNCS-Springer Special Volume on Software Engineering for Large-Scale Multi-Agent Systems.
- Four papers reviewed for IEEE Visualization 2005.
- Four papers reviewed for IEEE Visualization 2003.

Have served on the following conference / workshop functions:

- SciVis Papers Co-Chair, Initiated duties in 2015 for the IEEE Visualization 2016 and 2017 Conferences.
- Organizing Committee and Panel Speaker, IEEE Visualization 2015 Workshop entitled “On Visualization For Decision Making Under Uncertainty” , Chicago, IL, October 2015.
- Organizing Committee and Speaker, Nektar++ Workshop 2015, Imperial College London, London, UK, July 2015.
- Local Committee Conference Chair, International Conference for Spectral and High-Order Methods (ICOSA-HOM), 2012-2014 (Conference to be held June 2014).

- Paper Committee Member, IEEE Visualization, 2014.
- Paper Committee Member, IEEE Visualization, 2013.
- Organizer (with Paul Rosenthal, Robert Laramée and Gordon Kindlmann) of EuroVis Workshop EuroRV<sup>2</sup>, 2012-2013 (Workshop to be held June 2013 as part of EuroVis 2013).
- Invited Speaker and Panel Member, American Institutes of Aeronautics and Astronautics (AIAA) Annual Meeting, Grapevine, TX, January 2013.
- Paper Committee Member, IEEE Visualization, 2012.
- Participated as a panelist in a Panel at IEEE VisWeek 2012 entitled “Work the Line: Balancing Personal and Professional Life as a Visualization Scientist”, October 2012.
- Organized with Claudio Silva (NYU-Poly) and participated as a panelist in a Panel at IEEE VisWeek 2011 entitled “Verification in Visualization: Building a Common Culture”, October 2011.
- Paper Committee Member, IEEE Visualization, 2009.
- Minisymposium Co-Chair (with Prof. Spencer J. Sherwin), International Conference on Spectral and High Order Methods, June 2009.
- Paper Committee Member, IEEE Visualization, 2008.
- Panels Co-Chair, IEEE Visualization, 2008.
- Paper Committee Member, IEEE Visualization, 2007.
- Panels Co-Chair, IEEE Visualization, 2007.
- Program Committee, 14<sup>th</sup> International Conference on High Performance Computing (HiPC), 2007.
- Program Committee, Thread Verification Workshop, August 2006.
- Minisymposium Co-Chair (with Prof. Martin Berzins), World Congress on Computational Mechanics (WCCM), July 2006.
- International Program Committee, The 2006 International Conference on Computational Science and its Applications
- Minisymposium Co-Chair (with Prof. Martin Berzins), International Conference on Spectral and High Order Methods, June 2004.
- Paper Committee Member, IEEE SuperComputing, 2004.

Reviewed Proposals for the following agencies:

- Department of Energy Office of Science
- National Science Foundation (CISE and DMS)
- German-Israeli (Science) Foundation (GIF)

### **Academic Service:**

Senator, Academic Senate of the University of Utah (2006–2008)

Director, Computational Engineering and Science Program, University of Utah (2005 – 2008)

Member of the School of Computing Curriculum Committee (2006–2009, 2010 – 2012)

Member of the School of Computing Graduate Studies Committee (2006 – 2014)

Member of the School of Computing CES Committee (2004–2009)

Member of the University Committee for Computational Science and Engineering (SoC Delegate) (2004–2009)

Chairperson of the Scientific Computing Track, Computing Degree Program, School of Computing (2004–2014)

Member of the School of Computing Graduate Admissions Committee (2004–2009, 2011–2013)

Associate Director, Scientific Computing and Imaging Institute (2006–2007)

Associate Director, CES Program (2012 – 2014)

Director of Graduate Studies, School of Computing (2012– 2014)

Assistant Program Manager, Multi-Scale Multidisciplinary Modeling of Electronic Materials (MSME) Collaborative Research Alliance (CRA) (2012–present)

Associate Director, School of Computing (2014–present)

**Community Service:**

Judge for the Computer and Technology Category of the Sterling Scholars Awards, February 2003.

**Faculty Mentoring:**

Faculty Mentor of Miriah Meyer, Assistant Professor, School of Computing, 2011–.

Faculty Mentor of Hari Sundar, Assistant Professor, School of Computing, 2014–.

In places like the US, a Bachelor of Science degree is centered on the sciences and technical studies. Its coursework is heavy in Math and Science, which students are required to fulfill. A Bachelor of Applied Science degree program usually leans towards professional development and advanced technical training in the sciences. Tuition fees for Bachelor Degree are 325 000 rubles per year. 1st stage of continuous curricula of integrated Program (BS+MS) including 21 profile programs (trajectories). Fundamental Informatics and Information Technologies (4 years, 240 ECTS). Candidate of Science (PhD) in Applied Mathematics and Computer Science (3-4 years). Tuition fee is 261 600 rubles per year. 01.06.01 Mathematics and mechanics. George Em Karniadakis. Brown University - Division of Applied Mathematics. PhD, MIT, 1987. Contact. The reaction-diffusion model can generate a wide variety of spatial patterns, which has been widely applied in chemistry, biology, and physics, even used to explain self-regulated pattern formation in the developing animal embryo. In this work, a second-order stabilized semi-implicit time-stepping Fourier spectral method for the reaction-diffusion Through May, 2020, If when you call there is no answer, please try to call again later. Thank you. Earn a Bachelor's in Mathematics. Earn a bachelor's degree in mathematics at FAU! Schedule an appointment to virtually meet with world-class math faculty, click here for details . Analysis and Applications. Data Science, Statistics, and Probability. Cryptography. Algebra and Combinatorics. Centers. Math Resources. Florida Atlantic University 777 Glades Road Boca Raton, FL 33431. Campuses. Boca Raton. University of West Florida offers an online Bachelor of Science degree in Clinical Lab Sciences to the working adult student. This program is designed for LEARN MORE. The Associate in Science in Natural Sciences and Mathematics / Mathematics (ASNSM) degree emphasizes general education and is designed to provide a basis for transfer into LEARN MORE. California University of Pennsylvania.
