I tried learning in university, tried learning on my own, tried learning with my Russian husband, opens ___cocono. Get so far and then it's a mess. I think I was happier knowing just a little Russian, says lou_pedersen. Some letters look the same in Russian and in English, but they are completely different! And what's more scary, these letters are different in lowercase and capital forms. I thought I had cracked the alphabet until I saw the lowercase, cries peely72, [where] is not lowercase of M it is T. Russian handwriting can even be a challenge to native speakers, because it's rare that people have immaculate handwriting. For foreigners, this is even harder.
